cmyers.github.io

Full Stack Software Engineer with over 15 years of experience working across public and private sectors. I'm passionate about developing software that meets people's needs, taking a technology-agnostic approach. I believe communication and teamwork are the key to success in any business, and I value processes that enable teams to work together effectively and efficiently. I have collaborated on solutions for health services, telecommunications and most recently the oil, gas and chemical industries.

Skills

Languages:

- C#
- TypeScript / JavaScript
- HTML5 / CSS3
- SQL

Process:

- Agile Scrum
- SOLID
- Azure DevOps
